Skills

- Web Technologies: HTML, CSS, JavaScript
- Web Frameworks: React, NodeJS, Express
- Design Tools: Figma
- Version Control: Git
- CMS: Strapi
- Payment Processing: Stripe

Personal Projects

"Mbrew" Kombucha Eshop

<https://mbrew.netlify.app/>

- Developed a React-based e-commerce application for selling kombucha drinks, focusing on an intuitive user interface and responsive design.
- Integrated Strapi CMS for efficient product management and content updates.
- Implemented Stripe for secure and user-friendly payment processing.
- Utilized Styled Components for clean, responsive, and maintainable styling, enhancing overall user experience.

Professional Experience

Freelance WordPress Developer

2015 – 2016

- Created WordPress websites for clients, focusing on their specific requirements and preferences.
- Collaborated closely with clients to gather feedback and make necessary adjustments for a tailored user experience.

Cherry TEAM, UAB

2022 August – 2023 March

- Assisted in designing the messages page, including contact search and message input functionality.
- Collaborated on Google Maps integration, featuring custom marker cards and map-based elements.
- Developed the quick actions button and related functionality, boosting user productivity.
- Supported the development of table layouts, table item selection, and sorting.
- Implemented form validation, promoting accurate data entry and enhanced usability.
- Cooperated with back-end developers to integrate front-end components and API endpoints.

Education

Code Academy

2021 – 2022

- Completed a 6-month (16-hour per week) Frontend – Advanced Course to prepare for a front-end developer role.
- Acquired skills in building web applications with HTML, CSS, JS, and React.
- Gained experience in creating website backends using Node.js, Express, and MySQL databases, and developing APIs with CRUD operations.
- Developed expertise in hosting databases, backend, and frontend on Digital Ocean, Heroku, and Netlify.
- Completed numerous small and several medium-sized projects to refine and apply the learned technologies.
